HANDWRITING

Activity Book

Abdollah Ghanbari

MY FIRST HANDWRITING ACTIVITY BOOK

Written by: **Abdollah Ghanbari**
Illustrated by: **Mohammad Reza Moradi, Mina Sakhaei**
Art Director: **Erfan Shirkhani**

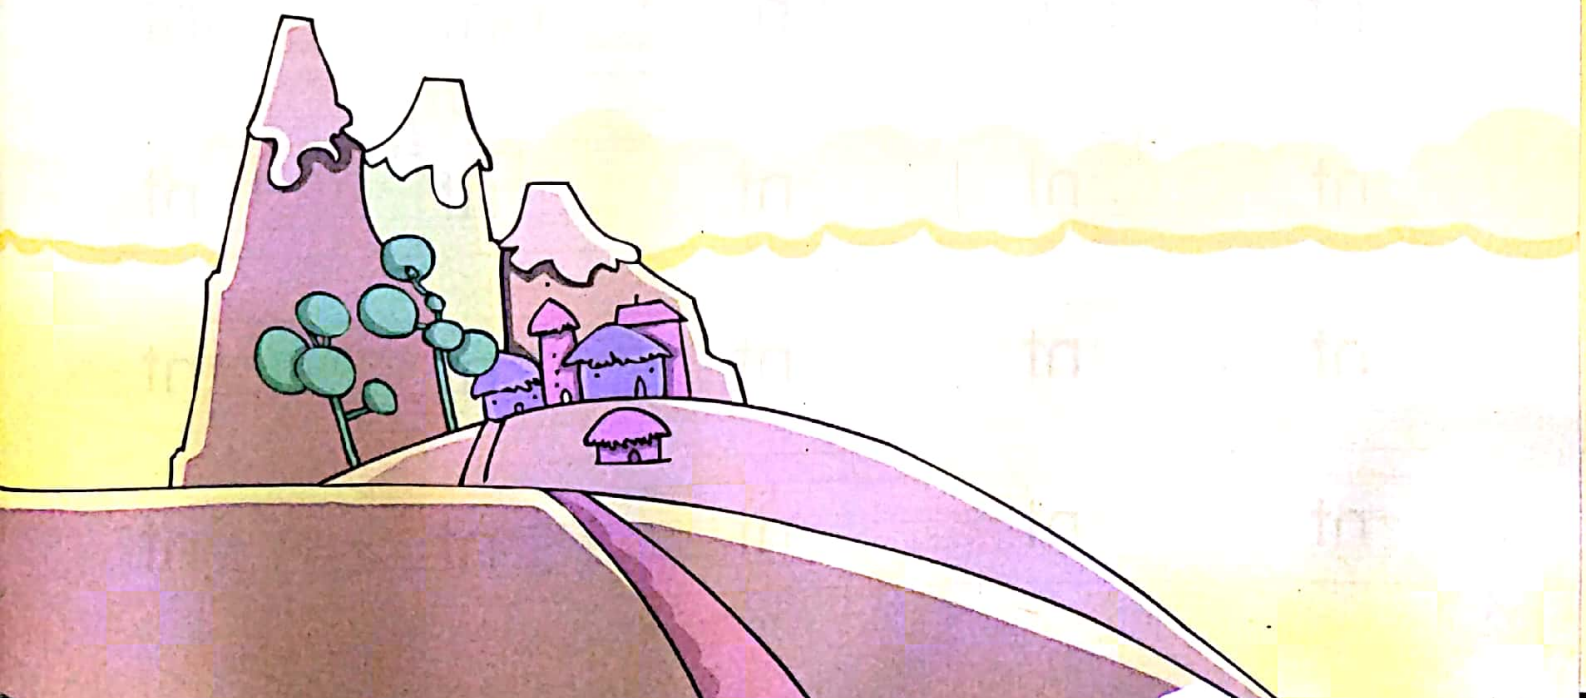

Introduction

Good handwriting is very important and easy, fluent style actually helps spelling and composition. A personal style of handwriting is something which students will develop with practice. In this book students will learn how to write all the letters of the alphabet quickly and well.

Rules to remember

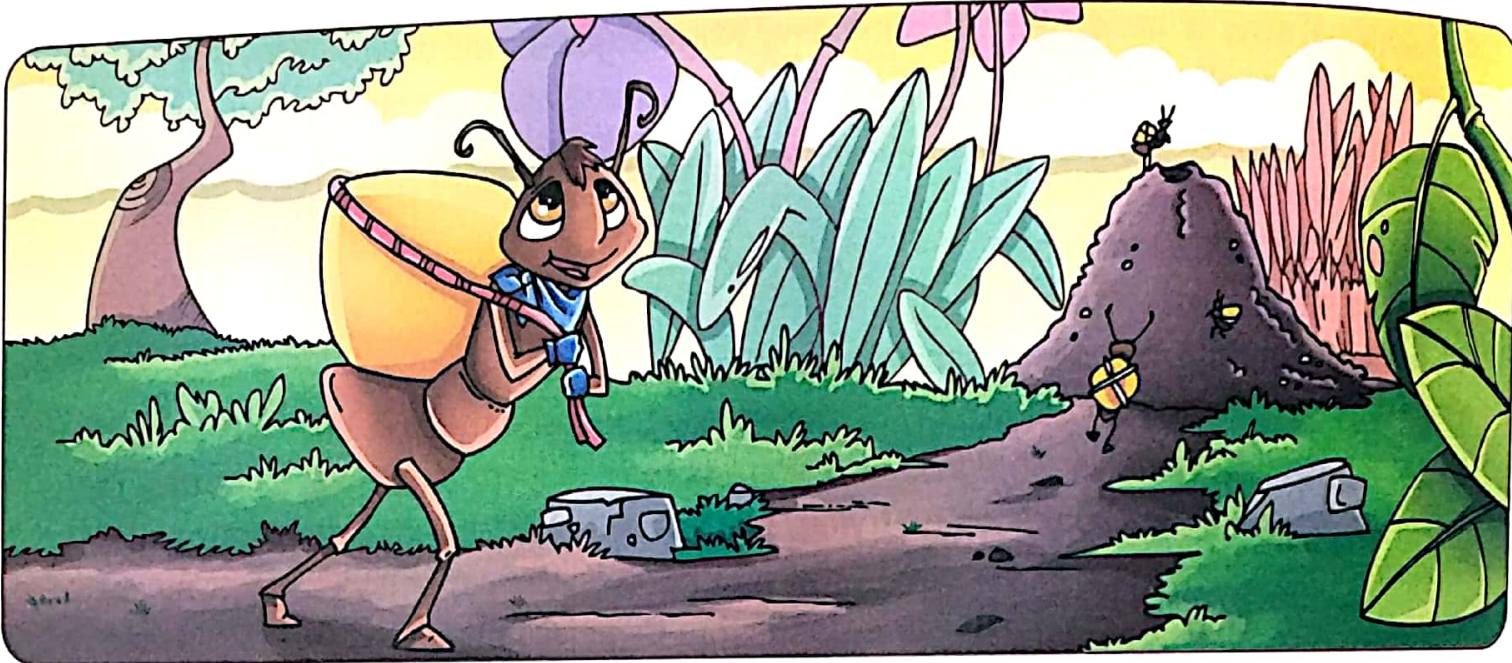

1. Sit square to your desk or table.
2. Hold your pencil tightly.
3. Do not press hard on the paper with your pencil.
4. Place the Paper square on the desk with the left edge opposite the middle of your body.
5. If you are used to writing from right to left you will have to learn a new way of holding the pen. This is difficult at first, but keep on trying. You will write better and more quickly in the end.
6. Place your left elbow close to your body and your hand on the paper above the point where you are going to write. It is bad for your eyes to write them less than 25cm from the paper.
7. The most important strokes in English are the down strokes. Hold the pen in your usual way and make a down stroke. If it slopes to the right like this /, turn your hand anti-clockwise until you can see three knuckles and try again. Your hand is now resting on the wrist and all movements have to be made by the fingers. Your pen is now pointing nearly above your right shoulder. You are ready to start.
8. Write quickly from the very beginning and keep the pen moving on the paper.
9. Remember this saying "Practice makes perfect."
